JAMES ULMER

Marvin Gardens is pleased to present *PAPER WORKS!*, a solo exhibition of paintings on paper by James Ulmer in our annex space. On display are seven unique works depicting figure-groups or solo figures actively engaged and painted in Ulmer's characteristic style of flatly painted shapes in bright, punchy colors. In this body of work he continues to push boundaries by abstracting and flattening simple recognizable shapes and distorting them to become far more interesting compositions and color-play than would be a straightforward depiction. We welcome you to share in this rare opportunity to see an exhibition devoted solely to Ulmer's paintings on paper.
