Marvin Gardens is pleased to present *STRANGE FIGURES*, a group exhibition celebrating diverse perspectives on figurative work. For our summer exhibition, the gallery has invited nine artists and friends within our community to participate. A few are long-standing friends or artists we've admired from afar yet this is the first time they have been able to show work with us. Some have shown with us before and/or will be working with us in the near future, and a few we've worked with in pivotal moments both in their growth as artists and Marvin Gardens' growth as a gallery. We are excited to welcome everyone to this show in celebration of all of the storied and varying moving parts in this community of friends, and of us all being quite strange figures in the end.
